Welcome to Universal Library

107,366 items

The Universal Library Project, sometimes called the Million Books Project, was pioneered by Jaime Carbonell, Raj Reddy, Michael Shamos, Gloriana St Clair, and Robert Thibadeau of Carnegie Mellon University. The Governments of India, China, and Egypt are helping fund this effort through scanning facilities and personnel. The Internet Archive has contributed 100k books from the Kansas City Public Library along with servers to India. The Indian government scanned the appropriate books. The Internet Archive has performed automated conversion of these scans into this collection.
