II. China Economy and Information Database

The image shows a screenshot of the China Economy and Information Database website. The background is a night view of a city skyline with illuminated buildings. The website's navigation bar at the top includes 'Home', 'Subjects+', 'Customized Services', a search bar, and language options 'Chinese' and 'English' with a 'LOGIN' button. The main content area features the database's logo, which consists of three stylized letters 'OEI' in blue and grey. Below the logo, the text 'China Economy and Information Database' is displayed. To the right of the logo, there are three teal-colored boxes with icons and text: the first box contains icons for a factory, a building, a computer, and a bar chart, with the text 'Academic Research, China Market Study and Investment Decision'; the second box contains icons for a bar chart, a line graph, a pie chart, and a table, with the text 'Readable, Visible and Dynamic Analytic Charts'; the third box contains icons for the British pound, Euro, Japanese yen, and US dollar, with the text 'Latest, Authoritative and Complete China Original Data'. At the bottom of the page, there is a dark blue navigation bar with white text for various categories: 'China Facts', 'General Survey', 'China Population', 'China Politics', 'National Economy', 'Regional Economy', 'Foreign Economy', and 'Featured Topics'.

Brief Introduction to JTP

✦ International Digital Publishing Project for Selected Chinese Academic Journals

an academic project launched and undertaken by CNKI, supported by the State Administration of Press, Publication, Radio, Film and Television of China and the Ministry of Finance of China, aiming at translating some high quality Chinese Journals into English.

✦ Types of Resources

STM Journals: both applied science and basic research; high academic level; world influential;

Social Science & Humanities Journals: about China's development and other hot topics in the world; mainly about international politics and international trade.

✦ Publishing Plan

Select 100 S&H journals and 100 STM journals respectively in the first stage, and finish translating all issues after 2014 in 3-5 year.
