1. “双碳”目标下民航业低碳发展挑战与路径
☆

随着全球气候协议的达成及实施，减少碳排放已成为各国乃至全球性公司的迫切需求。民航业通过采用更为高效的飞机、优化航线设计、使用生物燃料、提高运营效率等方式，可显著减少每次飞行的碳排放量。此外，发展碳捕捉和存储技术也为航空业提供了新途径。以上措施将有助于减缓全球变暖，保护生态系统，同时提高航空业的环境可持续性，为后代创造一个更加宜居的地球。

1. Historical Context: From Modern Art to Contemporary Buddhist Imagery

During the Japanese colonial period, Taiwanese painters who received Western art education began creating Buddhist imagery in "new art forms," developing styles distinct from traditional temple conventions **1**. These works originated from developments in modern Japanese painting and continued into postwar artistic practice **1**.

2. Concrete Expressions in Contemporary Taiwanese Buddhist Art

- The "3rd Contemporary Buddhist Art Exhibition" was described as representing a "transitional period," wi
